innovative solutions

Website

We have upgraded and relaunched our website and it is now much improved and accessible. The layout is superb showing a stylish and informative home page. The gallery displays a range of kitchen layouts, colours and materials and proves that functional kitchens can and do look exceptional. The range of products and materials that are available is extensive so take a walk through our gallery, garnish some ideas then come visit our showroom where we can show you a more expansive view. If you prefer to look things over in the comfort of your own home our very knowledgeable design team can come to you. We will work closely with you to design a specialty kitchen, built to your own requirements and installed to our exacting standards. Kitchens are but one of the many joinery functions that we undertake we also make doors, windows, stairs or most other joinery items and where necessary will replicate joinery to match. This is all completed in our own factory by qualified highly skilled craftspeople made to the highest of quality. Take the time, browse our website and contact us with your comments and ideas and believe it, we would like nothing less than to design, build and install your dream kitchen or manufacture that special piece of joinery for you.

Here comes Christmas, every time you look its come another week closer, scary isn't it. Time to get your chimney cleaned, before you know it the man in the big red suit will be here. I don't know where the year has gone we have been so very busy the time has flown by. Again we have completed a lot of kitchens as well as a considerable amount of commercial work. It has been testing at times and the variety of work has been a challenge but testament to the skills and dedication of our joiners and designers, they have all coped admirably well.
